

Zest Porcelain

Welcome to Zest Porcelain

As our team intricately involved in the alchemy of transforming earth into art, we are delighted to present to you a catalogue that is much more than a collection of our collections - it's a narrative of our dedication, a testament to the craft we have honed over decades, and a glimpse into the future we envision.

Porcelain is not just our business; it's our passion and a legacy that we are proud to carry forward. Each piece in our collections is a story told through the hands of our master artisans, all embodying 'Porcelain Perfected.'

This year marks a significant milestone in our journey as we unveil our rebranding. Our new look is a reflection of both our reverence for tradition and our commitment to innovation. It speaks to the core of who we are: a brand that respects the timelessness of porcelain while embracing the contemporary touches and technology that today's market appreciates.

We invite you to look through the pages of this, our latest catalogue, which is the result of countless hours of meticulous design and creative dedication. You will notice new collections that echo our passion - modern yet timeless, sophisticated yet accessible.

We welcome you to explore, to dream, and to find those perfect pieces that resonate with your personal style. Our rebranded collections are not just retellings of old tales; they are new chapters waiting to be filled with your culinary stories.

Thank you for joining us on this journey of beauty and refinement. May your exploration through our catalogue be the start of a splendid addition to your space.

THE CRAFT OF PERFECTION.

At the heart of **Zest** PORCELAIN's manufacturing process stands a symphony of tradition harmonized with the cutting edge of innovation. Our artisans, inheritors of time-honoured practices, meticulously shape each creation and collection, bringing life to the clay with techniques passed down through generations.

But, as much as we honour the past, we are not bound by it. We embrace modern technology to enhance the very fabric of our craft, ensuring every design is not only unique but also a benchmark of exceptional quality.

Enter our **HydroZero™ inside** technology - a testament to our relentless pursuit for Porcelain Perfected. This revolutionary technology stands as a case study of our commitment to transcendent quality and design, the marriage of form and function.

HydroZero™ inside started with an observation: When porcelain is fired at lower temperatures, some water content remains within the clay, and not all chemical reactions that change the colour are fully completed. It's this residual moisture that gives the softer, warmer feel. That's good for colour but bad for strength.

But when porcelain is fired at higher temperatures, above 1,200°C, almost all the water content is removed, and additional chemical reactions occur. The kaolinite in the clay undergoes a transformation into a new mineral known as mullite. This causes the porcelain to become more translucent and it takes on a bright, harsh white colour. That's good for strength but bad for colour.

Retaining the soft, warm creamy colour and keeping the strength needed a unique process. Our **HydroZero™ inside** composition and firing technology maintain all the strength of high-fired harsh white porcelain as well as all the low-fired creamy white colour that everyone loves.

Simply put, with **HydroZero™ inside** you can have the best of both worlds.

This pursuit for a blend of strength and beauty has been our guiding star. **HydroZero™ inside** technology is the culmination of this relentless pursuit of perfection. With it, we have mastered the alchemy that marries the unyielding durability of high-fired porcelain with the dreamlike hue of its lower-fired kin.

This innovation propels us to the forefront of the porcelain industry, redefining what's possible. It allows our creations to stand strong without forgoing beauty. It is here, within the fusion of these dualities, that **Zest** PORCELAIN truly embodies Porcelain Perfected - creating pieces that are not only tough but also exude an elegance that is the signature of our brand.

Porcelain with **HydroZero™ inside** is more than another product; it's the embodiment of our promise: **Porcelain. Perfected.**

HydroZero™ inside

PORCELAIN. PERFECTED.

It's not just our slogan.

It's been the driving intention behind our story from the beginning.

It's not a destination, but an expression of our relentless ambition to refine and enhance.

We believe perfection is an experience, an encounter with the exquisite.

Perfection isn't simply making something new. It's making something better.

Not just different. Something wonderful. Something unexpected. Something that takes everyone by surprise and opens their eyes to a new way of thinking.

Perfection can make complicated things simple. Or it can make simple things incredible.

But it always makes things better.

Perfection, real perfection, doesn't come from just finding answers. It comes from finding new questions. From using each new discovery, to discover more new opportunities. Perfection pushes boundaries.

It doesn't come from meeting people's expectations. It comes from anticipating the expectations that they might have in the future. It doesn't catch up. Perfection leads.

So Porcelain Perfected is not just a philosophy, or goal.

It is the benchmark, against which we judge everything we do.

We passionately strive to genuinely perfect porcelain.

Genuine advances such as our new HydroZero™ inside ingredient technology.

Composition and firing that keeps all the strength of high-fired harsh white porcelain with all the low-fired creamy white porcelain colour everyone loves.

Beautifully strong porcelain that works hard and looks great.

Porcelain that delivers the best of both worlds.

Porcelain that doesn't just set tables, it sets standards.

So for us, Porcelain Perfected is not an abstract concept; but a tangible reality

It's more than a statement; it's a promise.

A promise of unparalleled quality and design.

A promise that you're not just purchasing tableware, you're buying into an ethos where perfection is fired into the essence of our company and the very material of every piece we produce.

That's why at **Zest** PORCELAIN we can promise...

Porcelain. Perfected.

Kırılma & Kenar Çıtlama Nedenleri;

- Bulaşık raflarına yanlış yüklenmesi
- Ağır ürünlerin , hafif ürünler üzerine koyularak istiflenmesi
- Bardak ve kupa vb. ürünler stackabla değilse iç içe istiflenmemelidir

Break & Chipping Reasons

- Incorrect loading on dish racks
- Putting heavy products on lighter products
- Products such as Cups -Cups mugs cannot be stacks unless the products are stated as stackable

• ÇİZİLME

Mat ve Yarı Mat ürünlerde paslanmaz çelik sofra takımlarının kullanımı sonrası ya da bulaşık makinası deterjanından dolayı iz kalabilir.

Metal Marks

On matte and semi-matt product surface metal marking may remain after use of stainless steel cutlery or sometimes due to the heavy dishwasher detergents. These marks are caused by frictions and come out with aluminium oxide.

Renk Deęiřimi

Renk deęiřimi , Artistik Sır'ın doęal bir özellięidir.
Bu deęiřimler , ürünün el imalatı olduęunun bir
kanıtı olup her bir parçanın eşsiz olduęunun
göstergesidir.

Color Change

Color change is a natural feature of the Artistic Glaze.
These changes are evidence taht the product is hand
made and it shows that each piece is unique.

Altın & Platin Koruma;

- Yumuşak deterjanla elde yıkayınız.
- Tabak yüzeyini - kenarlarını telle ovmayınız.
- İstifleme esnasında aralarına kumaş vb. koyunuz.
- Mikrodalga Fırın kullanmayınız

Gold & Platin Protection

- Use hand washing with soft detergent.
- Do not rub plate surface - edges with scourer.
- Put fabric or any kind of material for protection between products during stacking.
- Do not use a in microware.

ALINDA

Where romance flows , capturing
the essence of elegance in each
porcelain piece.
